

Hello WORA Families,

Top Shelf Sports Photography will once again be providing its photographic services to the players & families of the West Ottawa Ringette Association for the 2011-12 season.

I'm pleased to announce two new designs for the upcoming season - a ringette themed version of the traditional "Memory Mate" and what I'm calling the "Textured Filter". Last spring I presented some of these textured photos to my daughter's coaches & they were a big hit. To see samples of the textured photos, please visit the WORA Photos Sample Gallery on my website. Additionally, I'm now offering digital copies - either as standalone purchases, or as part of some packages. I will email digital copies to parents along with a waiver form indicating you own the photo(s) and you are then able to email them to friends & family and print as many copies as you'd like. For the players, especially the older girls, they can post them on Facebook.

Order forms (electronic copies) are available for download off the WORA website. Once the NCRL schedule is finalized I will contact the managers to let them know when I will be attending the game to take photos. The day in which I photograph the team, order forms & money will be collected prior to the game as I'll need some time to review the orders. Players opting for the "Action and Portrait" or "Memory Mate" layout will have their portraits taken prior to the game. Within a couple of weeks of the photo session the orders should be filled.

Please note that these layouts are fully customizable as each player gets their name, number, team name and year included in the photo at no additional cost. Photos can be ordered individually or part of a package (please see order form for details.)

To see sample photos, please see the WORA: Photos Samples 2011-12 gallery at: www.topshelfsportsphotography.smugmug.com.

Should you have any questions, please feel free to contact me via email at topshelfsportsphotography@gmail.com or phone 613-836-8266.

Thank you.
